

## **Doctor of Osteopathic Medicine (D.O.)**

CLINIX is seeking a Doctor of Osteopathic Medicine to work as a primary care giver in our integrated medical facility. Will be required to work in an independent and interdependent relationship with members of our medical, chiropractic and alternative providers, which allows for consultation, collaboration, or referral.

### **Duties and Responsibilities:**

- Effectively identify, evaluate, and address disease prevention and health promotion issues of the population in the practice while administering quality patient care.
- Responsible for the diagnosis and treatment of acute, chronic, and long-term healthcare issues.
- Educates patients and/or families about preventive care, medical issues, and use of prescribed medical treatments and/or medications, as well as possible natural and holistic therapies that CLINIX offers.
- Maintains detailed, comprehensive and confidential medical records using the Allscripts Healthmatics Electronic Medical Records (EMR) database application. Documents all patient encounters including review of systems, medical history, diagnoses, labs, procedures, treatment, outcomes, education, referrals, and consultations.
- Analyzes new knowledge gained from conferences, workshops, professional literature, or "hands-on training" and assimilates this knowledge into clinical practice.

### **Educational Requirements:**

The successful candidate will be a licensed D.O. with an existing practice and strong skills in musculoskeletal manipulation.
