

## Colorado Immunization Information System

Keeping track of shot records has never been easier! Clinix participates in the Colorado Immunization Information System (CIIS), healthcare professionals, parents and individuals can rest assured that their immunization records are safe and complete.

CIIS is a confidential, population-based, computerized system that collects and disseminates consolidated immunization information for Coloradans of all ages.

*You can choose to exclude your/your child's shot information from CIIS at anytime. Please ask your healthcare provider at CLINIX for further information.*
