

Back-to-School Season: □ School/Sports Physicals vs. Annual Well-Child Visits

It's important to know that physicals are not the same as a comprehensive well-child preventive care visit. Get your child a thorough exam with a Clinix □ Well-Child Visit.

Well-Child Visit

- Complete physical exam
- Complete review of medical history
- Review of cognitive development
- Discussion about nutrition, physical activity, sleep, and health/safety risks
- Immunizations review
- Discussion about adolescent issues and risk factors, as applicable
- School/sports physical form can be completed during this visit
- Covered annually by most health plans and meets well-child quality metrics

School/Sports Physical

- Basic physical exam
- Brief review of medical history
- Variable definitions of what is included and necessary
- Includes completion of school/sports physical form
- Often not covered by health plans and does not meet quality metrics around annual wellness
